If you have more than 500 or less than 10,000 illegal scrap tires on your property, the Missouri Department of Natural Resources can help. Through its new Tire Dump Round-Up program, the department is offering qualified property owners the opportunity to have scrap tires cleaned up free of charge. The program is funded by the state's 50-cent-per-tire scrap fee paid when new tires are purchased in Missouri. Illegal scrap tire dumps pose serious environmental and health threats but when recycled properly have beneficial uses.
