Midwest Wholesalers, Inc. (Midwest Computer Recycling Center) is an Electronic Waste Recycling facility dedicated to keeping America's Land and Water supplies clean from toxic waste generated by the ever expanding deluge of Electronic Waste. In 2011 alone, Midwest Recycling Center diverted over 98,000 computer monitors from entering our landfills, thus preventing dangerous amounts of lead from entering the ground, which in turn would eventually enter our Water supplies. We also recycled more than 900,000 pounds of computers, which were also headed for our landfills.
