

## Online, Computer Based & Correspondence Training For Operator Certification Renewal Hours

Online, correspondence and computer based courses using CD-ROMs are available from many providers. The following is a list of providers that have courses approved by the Missouri Department of Natural Resources for renewal training hours for drinking water treatment, distribution, wastewater and concentrated animal feeding operations certificates.

**Not all of the courses offered by the following providers are approved. You must confirm with the training provider that the course is approved for hours by the Missouri Department of Natural Resources.**

Special Note: You may need to have a working printer connected to your computer for online and computer based training. Some online courses allow you to print a certification of completion at the end of the course, others may mail it to you. Obtaining proof of completion is very important. Without it, you may not be awarded training hours.

Online Training/Computer Based	
Provider Name	Contact Information
360 Water	<a href="http://www.360water.com/">www.360water.com/</a>
American Water Works Association	<a href="http://www.awwa.org/learnonline/">www.awwa.org/learnonline/</a>
