Message from the Director

The Department of Natural Resources has a dynamic workforce. Our employees are dedicated to the department's mission to protect public health and the environment and to seek alternative solutions to the state's environmental issues. We also have staff who dedicate their work efforts toward the enrichment and education of our employees for diversity and inclusion. We all have the power to make a difference through our daily work—no one person is smaller or greater than the sum of us all. I am excited to support and promote this year's Multicultural Affairs Committee Diversity Conference: Leadership and Change Management. They have put together an exciting agenda. I hope you will be able to join us.. - - - Sara Parker Pauley
